Guided audio walking tour
offered by
Lausanne Tourisme

in collaboration with
Pierre Corajoud
and imavox SA
Welcome to Lausanne for a walking tour that explores the many faces of this city!

This leaflet, which includes a map of the itinerary, provides you with information on taking part in the guided audio walking tour at your leisure with the help of an MP3 player.

How do I listen to the commentaries and move from one place to another?

The MP3 file has a total of 28 tracks: the first includes an introduction to your walk (whatever your point of departure), while the other 27 relate to places of interest dotted along the route and numbered on the plan.

Each track linked to a place of interest consists of two parts:
- a commentary of about 2 minutes on the place
- detailed instructions telling you how to get to the next place.

At the end of each commentary a signal tells you that you can continue your walk by following the next set of instructions.

In the same way, another signal at the end of each set of instructions tells you that you have to stop in order to enjoy the next commentary.

When two places are a long way apart and it is difficult to remember the instructions in one go, there are gaps between each of the sentences, which gives you time to push the “Pause” button.

How do I choose my route?

The route is made up of three distinct and independent sections, each of which can be walked in succession or separately:

- **Nature in town**
  last around 1hr 15 in total with commentaries corresponding to points of interest no. 2 to no. 8.

- **Historical and modern centres**
  last around 1hr 15 in total with commentaries corresponding to points of interest no. 9 to no. 18.

- **Around Lake Geneva**
  last around 1hr 30 in total with commentaries corresponding to points of interest no. 19 to no. 28.

How do I reach the departure point for each section by public transport?

The first part starts at the “Lac de Sauvabelin” stop for bus no. 16. Take the m2 metro from the Lausanne Tourisme information office in Ouchy or the railway station as far as the stop for “Bessières”. As you leave the metro make your way to the “Bessières” stop for bus no.16 by taking the lift and crossing the bridge on the right-hand pavement. The bus stop is at the end of the bridge. There are 4 buses per hour from Monday to Saturday, and 2 on Sundays. Leave this bus at the “Lac de Sauvabelin” stop and start your walk with point of interest no. 2.

The second part starts at the “Barre” stop for bus no. 16. From the Lausanne Tourisme information office in Ouchy or the railway station it is the same itinerary as for the first part, except that you must get off the no. 16 bus at the “Barre” stop and start your walk with point of interest no. 9.

The third part starts from the Lausanne Tourisme information office in the railway station, situated in the central concourse. Start your walk with point of interest no.19.
